Plainview Independent School District

Triennial Evaluation of the Local Wellness Policy

School Health Advisory Council

The School Health Advisory Council met on February 5, 2018 at 11:30 a.m. for their regular quarterly meeting. The Local Wellness Policy was evaluated using the Local Wellness Policy Checklist provided by the Texas Department of Agriculture. All components of the Wellness Policy were found to be in compliance with the checklist. The plan is aligned with model, evidence-based Local Wellness Plans provided to the district. Progress made toward attaining the goals described in the Plan was discussed. Additional action steps were added to the policy to reflect the current opportunities and practices of the district.
